ORDERED STEPS

March Series: Living The Change

Week Focus: Ordered Steps, Steady Growth

Scripture- Psalm 37:23

"The steps of a good man are ordered by the Lord."

Devotional Reflection

As you reflect on this week, remember that transformation is not measured only by dramatic moments. While powerful experiences can inspire us, lasting change is usually revealed through steady progress and faithful steps taken day by day.

Throughout this week, God has likely been guiding you in small but meaningful ways. Perhaps it was a decision to respond with patience instead of frustration, a moment of prayer during a busy day, or a quiet choice to follow what you knew was right. These steps may seem simple, but they are part of the formation God is shaping in your life.

Each decision to trust God, respond with wisdom, and follow His direction strengthens the foundation He is building within you. Over time, these repeated choices begin to influence how you think, how you respond to challenges, and how you walk through everyday situations.

The same God who ordered your steps this week will continue guiding you forward. His faithfulness does not end when the week ends. He remains present in every moment, continuing the steady work of transformation within you.

So today, take a moment to notice the growth that has been forming. Stay consistent. Stay attentive. Stay faithful. Your growth may be gradual, but it is meaningful, and God is faithfully shaping your life one step at a time.

Sunday Reflection Focus

Recognizing Growth

Reflect On

- Where did I notice God guiding my steps this week?
 - What small act of obedience felt significant?
 - How has my thinking or response changed?
 - Where do I see steady growth forming?
-

Prayer

“God, thank You for guiding my steps this week. Continue forming my life through Your wisdom and truth. Help me remain attentive to Your direction and faithful in each step You place before me. In Jesus’ name, Amen.”

Reflection Question

What evidence of steady growth can I thank God for today?
